### Integrus Language Distribution System

### Bosch Integrus Language Distribution System

For international conferences with multiple languages, it is obviously of the utmost importance that all participants can understand what is being said. That is why a system, which enables interpreters to simultaneously interpret the speaker's language, is almost indispensable. The interpretations created are then distributed throughout the conference venue, so delegates can select their language of choice and listen to it through headphones.

### Bosch Integrus Audio Input/Interpreter Module

Used for interfacing the Integrus transmitter with the discussion systems and the LBB 3222/04 6-Channel Interpreter Desk.

- \* Direct connection of up to 12 LBB 3222/04
